

**Structures Unlimited, Inc.**  
*Energy-Efficient Skylights & Pool Enclosures*

# Specialized Industrial & Municipal Building Systems

- *Pre-engineered Structural Aluminum Enclosures*
- *Single-source Design, Manufacturing and Installation*
- *Translucent Sandwich Panel System*
- *Maintenance-free*
- *Corrosion-proof*
- *Large-size, Removable Skylights*
- *Explosion-venting Wall Systems*
- *Operable Roof Systems*
- *Thermally Broken Panels*

## Structures, Skylights, Walls and Windows

Every Structures Unlimited, Inc. structure is custom-tailored and built from standard components designed to meet your needs. This is reflected in the various methods in which our structures can be designed, such as center ridge, shed, hip and circular.

- Enclosures from Structures Unlimited can be installed over existing basins. Engineering data can be provided at the design phase to complete basin evaluation and anchor bolt placement.
- Allows re-use of existing infrastructure.
- Is a cost effective way to house expensive equipment out of the weather in a pre-engineered, moisture-resistant building.
- Designed to meet local building code requirements.
- Building scope can include all doors, windows, hardware, trim, flashing, etc., for a complete building package.
- The total enclosure costs are competitive with other insulated building systems designed for a wet environment.
- Both the inside and outside surfaces are ultra-smooth – resist dirt, dust and bacteria build-up.
- All materials used in our enclosures are resistant to moisture and chlorine and consequently require virtually no maintenance.

## Special Approvals & Listings

- FM Explosion Venting Walls standard 4440
- FM Wall and Roof Systems standards 4881 and 4471
- Hurricane-resistant Systems
- NFRC Certified Systems (U-values as low as .10)
- UL Listings for Class A Roof System and Faces
- DoD and GSA Anti-Terrorism Compliant (UFC 4-010-01 Blast-resistant Construction)
- AAMA 2604 Paint Finish

## TYPICAL LIFT-OFF PYRAMID

Structures Unlimited, Inc. skylights utilize the patented Kalwall® structural roof panel system. It's the most highly insulating, diffuse-light-transmitting technology in the world! Structural thermally broken panels – NFRC Certified and UL Listed. ICC-ES listed for quality assurance and IBC compliance.

### Energy and Daylighting Characteristics

Listed are a few of the light transmitting, solar heat gain and insulating factors of the many common face combinations of Kalwall Structural Roof Panels. Many other options are available.

*Outperforms all others!*

U-value SI conversion: 1.0 W/m<sup>2</sup>K - 0.176 Btu/hr/ft<sup>2</sup>/°F

1. Approximate values by ASTM E-972.

2. At 0° incident angle.

3. U-values determined by NFRC test method at certified labs.

Please verify latest technical information, as product changes can affect performance.

# Structures Unlimited Enclosures are Erected Fast!

Completely factory-engineered, prefabricated and pre-finished, our structures go up fast. Prefabrication and total factory responsibility also mean no construction

delays or errors. And our structures can be erected at any time during the year, regardless of weather.
